Were there any changes in water level status this year, in natural or man-made differences and/or any action taken on water level management?

As a continuing evaluation of our Boater Education Program, please note if you have noticed any change or difference in considerate recreational use of your lake this season. Has it remained the same? Any specific incidences? Please comment:

Are there others on this lake concerned with protection of loons and their habitat?

Is there someone else who can act as alternate Loon Ranger when you aren't available?
